TEXANS ARMED AND READY FOR MEX. INVASION

MEN OF BIG BEND COUNTY TENSE IN EXPECTATION OF RAID

TROOPS BEING RUSHED TO TEXAS BORDER

DEATH OF OROZCO ROUSES MEN OF HIS TROOP; BATTLE EXPECTED

BULLETIN.

(By Associated Press.)

Sierra Blanca, Tex., Sept. 1.—All men of the Big Bend country, near the boundary of El Paso and Culberson counties, are under arms for fear of an uprising by General Orozco's organization of "Coloreds" as a result of the killing of the noted leader by soldiers and ranchers Monday. An appeal was made for more military protection.

Galveston, Texas, Sept. 1.—Orders have been issued by Maj. General J. Franklin Bell, commanding the Second division United States army, to commanders of the Fourth and Ninth regiments of infantry and the Sixth cavalry to hold their commands in readiness to entrain on short notice.

It is announced by General Bell that the Fourth Infantry and Sixth cavalry are destined for Harlingen, Texas; two battalions of the Ninth infantry for Del Rio and the other two battalions for Fort Sam Houston at San Antonio.

Houston, Tex., Sept. 1.—The Fourth and Ninth United States infantry have been ordered to the Mexican border and are leaving Texas City this afternoon.

Washington, Sept. 1.—Two regiments of infantry and one of cavalry were ordered from Galveston Tuesday night to reinforce the American troops patrolling the Mexican border. Secretary Garrison announced that the war department was sending additional forces at the request of Major General Funston, commanding the border patrol.

HARRY SUES EVELYN

(By Associated Press.)

Pittsburgh, Sept. 1.—Harry Thaw sued Evelyn for divorce today, charging misconduct with John Francis of New York.

SAYS KAISER IS BUYING WAR MUNITIONS HERE

CHICAGO MAN ALSO SAYS HIS FIRM IS MAKING SHELLS FOR U. S.

Chicago, Sept. 1.—Germany buying munitions secretly in the United States?

That is the statement made today by a man who knows.

George M. Getschow, secretary of Phillips, Getschow & Co., is quoted as stating that he is a stockholder in a firm which is making 100,000 six-inch shells for the United States army, and that the German government like the allies is purchasing munitions of war in the American market. "I have seen some of the German contracts," continued Mr. Getschow. "That Germany is a buyer is common knowledge among manufacturers. Most of the shipments to Germany are made in Norwegian and Danish steamers."

America's New Policy, Control of the Caribbean Sea

Secretary of State Lansing

Map of the Caribbean Sea.

Admiral William B. Caperton.

WILL PROBE CHEMICAL INDUSTRY

NOT ONLY WILL RELIEVE DYESTUFF SITUATION BUT SEVERAL OTHERS

New York, Sept. 1.—Not only the dyestuffs situation but ever phase of the chemical industry will be taken up by agents of the department of commerce sent here by Secretary Redfield to investigate conditions in those trades caused by the war. Dr. Thomas H. Norton, the chief investigator, who began work here said:

"We are anxious to learn how we can utilize the coal industry, in which we are now wasting products worth \$100,000,000."

"Germany utilized every ounce of coal by-products but only 10 per cent of our coke furnaces are equipped for reclaiming coal tar products. Only a few are actually recovering benzol, naphthalene and carbolic acid, which are the basis of most of the coal tar products. Unfortunately benzol and carbolic acid are used largely in explosives with the result that these products are mostly taken up by the ammunition factories."

"The potash problem is large. We import annually from Germany \$15,000,000 worth of potash, while off the coast there are supplies of which which are believed to have a value of \$150,000,000 now going to waste. We have at our door enough potash to meet the demands of the world and to supply the needs of our crops, tobacco grain and other produce in the way of fertilizer. We have always been dependent on Germany for potash."

"Photographic chemicals are vanishing."

"We do not want to get caught in such a plight again and the department of commerce wants to stimulate American development so we can supply our own demands and then branch out into the world's trade in chemicals."

BEARLESS WHEAT YIELD BETTER THAN OLD STYLE

Bearless wheat in Oklahoma, according to President Frank Gault of the state board of agriculture, made a big yield this year. It shows a big lead over the bearded variety. As an example, one farmer planted two fields of equal acreage, each containing the same number of acres. The beardless beat the bearded by ten bushels on an average to the acre.

Secretary of State Robert Lansing has just announced a new and great end. The Panama strip itself serves as the control of the Caribbean Sea, which is necessary to the protection and control of the Panama Canal. Such is the interpretation put on the treaty he has just offered the new Haitian government providing for a protectorate of ten years. Of course, the policy is not stated in the broad terms that the purpose of it is to dominate the Caribbean; but far seeing Washington observers, who have believed ever since the American government decided to build the Panama canal, that domination of the Caribbean was absolutely necessary to its protection, think the time has at last come when this new American policy has taken shape.

Control of the Caribbean requires

DUTCH SHIPS REAP GREAT RICH HARVEST

HOLLAND-AMERICAN LINE LINE REPORTED TO HAVE MADE 30 MILLIONS

New York, Sept. 1.—According to reports from Rotterdam the Holland-American Line has made immense profits in its freight business since the beginning of the war. Although local officers of the company have not confirmed the report, it is said by well informed steamship men that the Holland line has made \$30,000,000 in the nine months ending July 1.

A tremendous cargo trade was carried on between this port and Rotterdam for many months after the start of the war. At one time the line had 40 ships plying the Atlantic and it was understood that most of the freight was foodstuffs and non-combatant and bound for Germany. These ships also carried most of the freight brought out of Germany for this country. Since the embargo on almost everything by Great Britain, this trade has dwindled and not so many Holland-American freighters and chartered ships are seen here. It is said, however, that a good deal of cargo still goes into Germany via Rotterdam.

BOY DROWNS IN FIVE INCHES OF WATER

Salina, Sept. 1.—The one year old son of Herbert Wyatt, fell into a jar containing five inches of water here and was drowned. Two hours' work with a device to restore respiration failed to save the child's life. The Wyatts who live at Quiter, Kan., are visiting relatives here.

RUSSIAN LOSSES SINCE MAY 2 IS 3 MILLION

JAPAN WILL NOW ENTER WAR ACTIVELY IN SUPPORT OF ALLIES

(By Associated Press.)

Berlin, Sept. 1.—An official review of the eastern campaign estimates that since May 2, the Russians have lost 300,000 men in killed and wounded and one million one hundred thousand men captured.

Turks Get Two Ships.

Berlin, Sept. 1.—Overseas bureau made the following announcement: A telegram from Smyrna reports that two hostile cruisers were bombarded off Smyrna and the coast gulf south of the city. One of the cruisers was foundered. The second ship attempted to go to the rescue but was prevented by the Turkish artillery.

Japs Will Aid Allies.

Paris, Sept. 1.—Petit Parisiens Rome correspondent in an interview with Baron Hayashi Japanese ambassador to Italy, intimates that Japan will co-operate in the campaign to

POUND STERLING GOES DOWN IN VALUE STEADILY

(By Associated Press.) New York, Sept. 1.—Weakness and demoralization continued in the foreign exchange market today. First available transactions gave a demand for pound sterling at \$4.41½; three and three quarter cents below yesterday's figures.

NEGRO SCHOOL HEAD RESIGNS; WILL PROSECUTE

PRESIDENT INMAN PAGE WILL NOW GO AFTER ENEMIES WHO PERSECUTED

That Inman Page, for many years president of the A. & N. College at Langston was forced to resign is vigorously denied today by members of the state board of education. President Page resigned of his own volition stating that he was sick and tired of combating the continual attacks made on him by political enemies of his own race and in his own school.

"I have known Professor Page for a number of years," said County Attorney Swank today "and I know he is honest in his convictions and is one of the best educated and capable negro school men in this state; he has been opposed by several members of his own faculty because he would not permit them to do the very things that they charge him with doing. This office has a line on some new evidence in the child murder case that took place at Langston recently and I think it will clear matters up considerably in Page's favor."

Professor Page resigned yesterday. Following the acceptance of his resignation President Page, accompanied by his attorney, Moman Prulett of Oklahoma City went to the latter's office and are taking affidavits upon which will be based an application to County Attorney Embrey for warrants for the arrest of several negroes, some in Oklahoma City and some connected with the Langston school, charging them with extortion and libel.

"The devilish work that has been done to injure President Page, absolutely one of the ablest negro educators in the nation, may be charged to a group of negro Democrats who want to get rid of him in order that some of them may succeed him at Langston," said Prulett.

The publication in the Tribune, a negro publication at Oklahoma City, alleged that "vice and immorality of the worst sort" obtained at the school of which Page is the head.

OKLAHOMA CITY COUPLE ARE MARRIED HERE

Albert H. DeLong and Jessie M. Paschal of Oklahoma City were married this morning at the court house by Squire W. H. Hornaday. Both are said to be prominent in society at Oklahoma City and come here to escape their enthusiastic friends.

GUTHRIE BUSINESS MEN TO VISIT COUNTY TOWNS

TRADE EXTENSION RUN WILL BE MADE SEPTEMBER 7TH. MANY ARE GOING

The chamber of commerce has arrangements almost completed for the trade extension run for the several auto owners have not reported, but it is hoped that they will do so within the next 48 hours. Several merchants and personal men who are to be of the party can arrange with the following auto owners, so that the cars will have the full quota of books. These are only about have the required number needed for the first day, Tuesday: Messrs. J. D. Van Hooker, L. E. Jarrell, R. J. Conaway, Lyman Gray, Ned Helman, F. W. Linta, H. L. Matchett, Walgamot Bros., John Coyle, George Fraser, L. J. Beland, Mac Morris, Tom Jenkins.

Owners of other cars can make up their full parties if they so desire, but they should report the names of all to the secretary of the chamber of commerce, so that there will be no confusion. Every Guthrie booster especially those with autos, must get energetically busy, as there is no time to be wasted. Tuesday morning at least three parties must leave Guthrie, fully equipped for the day's run and work. The work for the 8th will not require so many cars, but the secretary must have your plans for that day, also.

SHERWOOD'S MAN SLIPPED TO COVER IN MIX UP

When the sheriff's office here wired to the city police at Oklahoma City to arrest G. V. Shepherd on a larceny charge they grabbed the first shepherd in sight. One of that name with initials of T. V. was held. He is not the man wanted by Sherwood, but proved to be a bad character and is wanted in Creek county. "Looked like a crook and we thought we would hold him anyway," said the Oklahoma City officers. Sherwood's man, in the meantime hiked to Texas.

2 MILLION SHELLS USED IN CAPTURE OF OSSOWETZ

Dvinsk, Russia, Sept. 1.—More than 2,000,000 shells were used by the Germans in the capture of Ossowetz, which was evacuated by the Russians last week. The Austro-Germans forces stormed the fortress almost daily. Wounded members of the former garrison of the fortress, who are in hospitals here, declare that the German losses before the fortress surpass imagination. According to German prisoners, officers among the attacking forces declared that the fortress had cost them five times more than were in the garrison.

IRISH SOLDIERS VICTORIOUS IN A BAYONET BATTLE

DEAD TURKS CHOKE MOUNTAIN PASS IN DARDANELLES BATTLE

Paris, Sept. 1.—The report emanating from Berlin that the British had lost 50,000 men at the Dardanelles in a week is refuted today in an official report. The British have a land force now of more than 150,000 picked and seasoned men and are on the verge of winning the greatest battle of the present war. The following is the gist of the report:

For the moment the severe fighting has come to a stop along the front of our new positions after the week of battles which followed the landing at Suvla bay. The most important advantage secured has been a large extension of the territory held by us on the northern shore of the peninsula. Resting upon Suvla bay, with its left occupying the long ridge

KAISER AGAIN BOWS TO WILL OF PRES. WILSON

WILL ADHERE TO SUBMARINE POLICY LAID DOWN BY UNITED STATES

BERNSTORFF DELIVERS WRITTEN REPLY TO NOTE

PASSENGER SHIPS HEREABOUTER, WILL BE WARNED BEFORE TORPEDOED

Crown Prince of Italy.

Washington, Sept. 1.—Count Bernstorff, German ambassador, on instructions from Berlin, verbally informed Secretary Lansing today that the Imperial German government had accepted the principle that all passenger liners should be warned before attack by submarines.

He will formally communicate this information in writing later.

Secretary Lansing, following the visit of the German ambassador said: "The German ambassador told me his government would accept our declarations regarding the submarine warfare in principle. The ambassador agreed to reduce his statement to writing which he will submit to me later in the day."

Bernstorff was informed that the United States could not accept as final an oral transmission of the German point of view.

Bernstorff later sent Secretary Lansing this letter:

"With reference to our conversation this morning I beg to inform you that my instructions concerning our answer to your last Lusitania note contains the following message:

"Liners will not be sunk by our submarines without warning and—its own safety of lives of non-combatants, providing liners do not try to escape or offer resistance."

"Although I know you do not wish to discuss the Lusitania question until the Arabic incident has been definitely and satisfactorily settled, I desire to inform you of the above because this policy of my government was decided on before the Arabic incident occurred."

Lansing said: "In view of the clearness of the foregoing it seems needless to make any comment in regard to it, other than to say it appears to be a recognition of the fundamental principle for which we have always contended."

In official quarters all are gratified that the submarine crisis has passed, with the German acknowledgment of principles for which President Wilson has been contending.

Miss Claude Bennett has returned from Chicago where she took a course in the Goussard Training school. She will have charge of the corset department at Lutz's.

THE WEATHER

(By Associated Press.)

New Orleans, La., Sept. 1.—Tonight and Thursday fair, warmer.

WEEKLY WEATHER FORECAST

For the West Gulf States: Generally fair weather is indicated during the week, except that local showers are probably Wednesday in eastern Texas. Rising temperature Wednesday and Thursday and seasonable temperature thereafter.
